EXPERIENCE

Supply Chain Officer

Marico India Ltd

February 2026 – Present, Sanand, Gujarat

- **Inbound Operations Management:** Managed PO validation, ASN creation, IBD generation, TU assignment, unloading, and GRN processing in SAP EWM.
- **Outbound Operations Management:** Executed OBD/ODO creation, warehouse task management, picking, loading, goods issue, and dispatch activities.
- **Inventory Control & Reconciliation:** Maintained inventory accuracy through cycle counting, stock audits, reconciliation, and discrepancy resolution.
- **Warehouse & ASRS Operations:** Supervised warehouse activities and ASRS systems to ensure efficient storage, retrieval, and material movement.
- **Transportation & Dispatch Coordination:** Coordinated vehicle planning, transporter management, dock allocation, and shipment execution for on-time deliveries.
- **Order Fulfillment & Distribution:** Managed order processing, inventory allocation, and dispatch execution to achieve service-level targets.
- **Data Analysis & Reporting:** Generated MIS reports, monitored KPIs, and leveraged SAP EWM, Power BI, and Excel for operational insights.
- **Cross-Functional Coordination:** Collaborated with Procurement, Planning, Production, Logistics, and Vendor teams to ensure seamless supply chain operations.
- **Process Improvement & SOP Management:** Developed and implemented SOPs, process controls, and continuous improvement initiatives.
- **Team Leadership & Compliance:** Led warehouse manpower while ensuring adherence to safety, quality, FIFO/FEFO, and EHS standards.

Executive

Lenskart Solutions Pvt. Ltd

January 2023 – February 2026, Bhiwadi, Rajasthan

- **Inventory Control & Reconciliation:** Maintained inventory accuracy through cycle counting, stock audits, reconciliation, and variance analysis while ensuring system and physical stock alignment.
- **Inbound Operations & Storage Management:** Managed end-to-end inbound processes including material receiving, GRN processing, putaway, replenishment, bin management, and inventory organization in SAP EWM.
- **Warehouse & ASRS Operations:** Supervised warehouse operations and ASRS activities, ensuring efficient storage, retrieval, order processing, space utilization, and smooth material flow across the supply chain.
- **Order Fulfillment & Customer Service:** Coordinated order fulfillment, dispatch planning, and Next-Day Delivery (NDD) operations while resolving customer escalations and ensuring service-level adherence.
- **Data Analysis & Reporting:** Utilized Power BI, Grafana, NEXS, and Concinity to analyze operational performance, monitor KPIs, generate MIS reports, and support data-driven decision-making.
- **Team Leadership & Process Improvement:** Led teams of 30–40 associates, managed workforce planning, developed SOPs, and implemented continuous improvement initiatives to enhance productivity and operational efficiency.
- **Safety, Compliance & Quality Control:** Ensured compliance with safety regulations, PPE requirements, warehouse standards, FIFO/FEFO practices, inventory controls, and proper handling of damaged and returned inventory.
